Notes:

1. ROM3 contains a game serial number, so while this image is known to be good, a good ROM with a different serial number may not verify against this image.
2. Free Play - Burn and install 2 x 2764 ROMs using the Free Play ROM images. To enable Free Play, set Setting 30 to 1. To disable Free Play and return to normal coin play, set Setting 30 to 0.
